WHY USE POOR GASOLINE which fills your motor with carbon and gives short mileage, when at the cost of 1c per gallon it can be made the very best and relieve you of all the trouble which comes from using poor motor fuel? Where kerosene is used in tractors or in stoves it will be found equally beneficial. It purifies the oil, increases the power, eliminates the smoke in kerosene stoves.

SAVE TWENTY TO TWENTY-FIVE PER CENT ON GASOLINE
by using GARVEY'S MOTOR PEP. Reduces gasoline expense. Increases mileage twenty to twenty-five per cent. Prevents eighty per cent of carbon. One $1.25 package treats 125 gallons of low grade gasoline, making it a high grade product. Prove by trying it.
GARVEY MANUFACTURING CO., 534 Bremer Arcade, St. Paul

WHY USE POOR GASOLINE which fills your motor with carbon and gives short mileage, when at the cost of 1c per gallon it can be made the very best and relieve you of all the trouble which comes from using poor motor fuel? Where kerosene is used in tractors or in stoves it will be found equally beneficial. It purifies the oil, increases the power, eliminates the smoke in kerosene stoves.

1017-1019 SIXTH AVE. SO. MINNEAPOLIS, MINN.

Western Canada Lands
A RARE OPPORTUNITY
I am in position to offer for sale a couple of very good and well improved farms situated right in the heart of the famous CORN belt of Southern Minnesota at very reasonable prices.
The soil is fully as good as the very best soil in Iowa and it will produce fully as much per acre. Anyone who wants to buy a choice farm, I would advise to come here first and look these farms over before buying anywhere else. Don't buy a farm in a locality where you have to pay from $200 to $350 per acre when you can buy just as good farms at $125 to $165 per acre. I also offer for sale couple of pieces of good cheap land in northern Minnesota at $3 to $6.50 per acre, and two pieces of good prairie land in Canada at $10 per acre.
If interested, then write for LEGAL and FULL description and terms of sale, etc.

WHY USE POOR GASOLINE which fills your motor with carbon and gives short mileage, when at the cost of 1c per gallon it can be made the very best and relieve you of all the trouble which comes from using poor motor fuel? Where kerosene is used in tractors or in stoves it will be found equally beneficial. It purifies the oil, increases the power, eliminates the smoke in kerosene stoves.

PARK JUNCTION. Ramsey county. On the N P Ry 8 miles n w of the St Paul Union Depot.

PARK MANOR. Hennepin county. A station on the M N & S Ry 3 miles s of Luce Line Junction.

PARK POINT. St Louis county. See Minnesota Point.

PARK RAPIDS. Est pop 2,250. Hubbard county. The county seat and an enterprising town on the G N Ry and the Jefferson Highway, 200 miles n w of the Twin Cities. Located in the midst of a fine agricultural region famous for its grain, clover, potatoes and dairy products, and is the gate-way to the Itasca State Park, where the state has established a rustic summer home over a good auto road. Tributary to which is reached from Park Rapids Park Rapids are 16 summer resorts, where good accommodations may be had. The Park Rapids system of seven lakes, with their sand beaches, pine-covered shores and excellent fishing, now connected by a series of locks, affords ideal conditions for the tourist and sportsman and is becoming famous throughout the Northwest. Park Rapitds has churches of all the leading denominations, a court house and jail costing $25,000, an auditorium, a community club, a public library, 3 banks, 5 hotels, a new hospital, a creamery, a canning factory, saw mills, and a grain elevator. The Fish Hook river furnishes excellent water power, which is

ST. PAUL FOUNDRY COMPANY

STRUCTURAL STEEL AND IRON-GRAY IRON AND SEMI-STEEL CASTINGS

ST. PAUL, MINN. See Page 7

used as power for a fine system of water works, an electric light plant, flour and feed mill. Two weekly newspapers, the Park Rapids Enterprise and the Hubbard County Journal, are published. Ships lumber, cordwood, potatoes, flour, grain, clover and grass seed. Land sells at $25 to $135 per acre. Exp and tel. Sidney D Wilcox P M.

REDWOOD. Redwood county. A station on the M & St L R R p o name North Redwood 6 miles w of Morton.

REDWOOD FALLS. Est pop 2,500. Redwood county. The county seat on the C & N W Ry 40 miles n w of New Ulm. Also on the Redwood river at its confluence with the Minnesota from which power is derived and utilized by a flouring mill and an electric light plant. The Alexander Ramsey State Park adjoins the north city limits. City improvements under way are the paving of nearly thirty blocks of streets and the installation of white-way lights. Has Presbyterian, Catholic, Methodist, Episcopal, Christian and Lutheran churches, 3 banks, a library, an armory, a hospital, an opera house and water works. Two weekly newspapers, the Gazette and the Sun, are published. Stage meets every train at North Redwood (Redwood station) 2 miles n e on the M & St L R R. Ships grain live stock and produce. Land sells at $150 to $300 per acre. Exp and tel. Clements A Lauterbach P M.

ROCHESTER. Est pop 14,900. Olmsted county. Settled in 1854. Incorporated in 1858. The county seat on the Zumbro river which supplies fine water power and on the C & N W and C G W Rys 90 miles s of the Twin Cities. It is an important city in the s e part of the state. Has Baptist, Catholic, Christian, Congregational, Episcopal, Evangelical Assn, Hebrew, German and Norwegian Lutheran, Methodist, Presbyterian, Universalist and United Brethren churches, an academy, Y M and Y W C A's, a civic and commercial association, 2 libraries, a theatre, 6 banks, a number of hotels, prominent among them are The Kahler, erected at a cost of nearly $150,000, Hotel Zumbro, the latter built of reinforced concrete, fire-proof construction, costing $200,000, Hotel Olmsted, now under construction, at a cost of $2,000,000, as well as several others costing $100,000 nearly completed. This is the home of the Mayo Clinic which has an international reputation. Has a state hospital and several other hospitals. It also has several department stores and wholesale houses, flour and feed mills, camera, soft drink and cigar factories, foundries and machine shops, 2 creameries, 3 grain elevators, electric light and gas plants, and a fine system of water works. Two daily newspapers, the Bulletin and the Post & Record, are published. The soil in the vicinity is a rich loam eminently adapted for general agricultural purposes. Land sells at $100 to $160 per acre. Ships flour,

FARM LANDS AND INVESTMENTS

WHY USE POOR GASOLINE which fills your motor with carbon and gives short mileage, when at the cost of 1c per gallon it can be made the very best and relieve you of all the trouble which comes from using poor motor fuel? Where kerosene is used in tractors or in stoves it will be found equally beneficial. It purifies the oil, increases the power, eliminates the smoke in kerosene stoves.

ST CLOUD. Est pop 18,000. Stearns county. The fifth city in population in Minnesota and the county seat. On the G N and N P Rys 70 miles n of the Twin Cities. It is located on both sides of the Mississippi river, four wards being in Stearns, two in Benton and one in Sherburne county, making it the trade center of three wealthy counties and a rich agricultural section. It is under the commission form of government with 3 salaried commissioners and 5 unpaid councilmen. It is known as the Granite City, having the most extensive granite quarries in the west, and is the second granite city in production in the county, having a yearly output of $3,000,000. It has churches of all the leading denominations and is the residence of the Catholic Bishop. The Baptist, Catholic, Lutheran, Methodist and Unitarian Societies have handsome church edifices. An orphanage costing $250,000 is being constructed by the St Cloud Diocese of the Roman Catholic church. St Cloud has the largest normal school in the state, a home for the old folks, an Elks home costing $25,000, a public library, business colleges, a hospital, a commercial club, 6 banks, a theatre, several hotels, a new one being in course of construction costing $300,000, flour, feed, lumber and woolen mills, foundry and machine shops, 2 creameries, bottling works, blank book, broom, bob sled, wagon, cooperage, cigar, pickle, soft drink, writing tablet, garden tool and woodworking factories, granite crushing and polishing plants, wholesale grocery and confectionery houses, brick yards, novelty sheet metal products and special automobile equipment plants, gas and electric light plants and water works. Shops of the G N Ry are located here, employing 1,000 men. It is the distributing center for the International Harvester Company for northern and western Minnesota. It has one of the largest automobile clubs in Minnesota, which has built a river drive along each bank of the Mississippi river, and aided in securing for the city its largest park, the city having 5 of them. The Minnesota State Reformatory is located here. It has street car service with Sauk Rapids and Waite Park. Two daily newspapers, the Journal-Press and the

LIVE WIRE DEALERS, SALESMEN AND AGENTS — CAN MAKE MONEY WITH
MADE-O-METAL PRODUCTS

We are now manufacturing a number of high-grade metal specialties that sell on their merits and make a decent profit for the man who sells them. We are adding to this line as fast as we can design and develop other meritorious products. Our plans for the future are to offer additional money-making opportunities to the men who can make money for themselves—and us—NOW.

ST. PAUL, Census pop 234,595. In Ramsey county. At the head of navigation on the Mississippi river 10 miles e of Minneapolis and 410 n w of Chicago and 150 miles s of Duluth. It is the capital of Minnesota. St. Paul and Minneapolis are together widely and generally known as the Twin Cities, and although two separate municipalities, still they have become famous as one business center with everything in common except political boundaries. With an aggregate population of 615,093, this community now ranks as eighth in size and importance among the trade centers of the United States, New York, Chicago, Philadelphia, Detroit, St. Louis, Cleveland and Boston being the only cities on the North American continent that exceed the Twin Cities in population, trade and wealth.

Within this favored and prosperous area are many of the largest and best institutions in the nation, and many highly interesting sights for tourists. The altitude is about 800 feet. The clear lakes and bright blue sky are the first evidence of a pure, healthful atmosphere and an invigorating climate that is destined to create the greatest and most vigorous race of men the world has ever known. The Twin Cities are on the highway between the Atlantic and Pacific Oceans, being 1,300 miles from the eastern sea-board and 1,800 miles from the western shore, and must of necessity soon take third place among the great trade centers of this progressive nation.

St. Paul has an exceptionally favorable location. It was selected by the Indians and the first white men who visited this region as a natural trading point, and for more than a third of a century it has been described by poets and the leading writers of the nation as the paradise of the tourist. It has long been known as the railroad commercial and political center of the Northwest, and it is fast becoming famous as an educational, musical and social center and as a most desirable place for residence. In 1819 Fort Snelling was established and civilians immediately squatted on land in its vicinity, generally within the limits of the military reservation. The number of settlers was increased so largely that the military authorities insisted upon their removal from the reserve, and crossing the Mississippi, they formed the nucleus whence sprang the City of St. Paul. In 1841 Father Gaultier, a young Catholic priest, was sent hither to take charge of their spiritual welfare. He built a chapel near the present intersection of Fifth and Sibley streets, which he called St. Paul's and from that the name given to the city was derived. In 1848 a p o was established.

Until 1849 the settlement grew slowly, but when the country west of the St. Croix and Mississippi rivers was separated from Wisconsin, and the new territory of Minnesota was organized in 1849, St. Paul was chosen for its seat of government. The village grew vigorously, however, after being made the political center of the population, which was 1,950 in 1850, becoming 10,278 in 1860, notwithstanding the blow which the financial depression of 1857 inflicted. In the second decade it was again retarded for a time by the occurrence of the War of the Rebellion and the Sioux outbreak; but as these made an active market for agricultural products, and Minnesota was fortunate in having excellent crops, what seemed at first a calamity, proved advantage-

NORTHWESTERN HIDE & FUR CO
HIDES PELTS WOOL FURS PELTS, GINSENG, ETC.
200-204 FIRST ST. NO. PHONE 1890 MINNEAPOLIS, MINN.

ous to the infant state and city. In 1870 the population numbered 20,030, nearly 100 per cent gain within an interval which was regarded at its beginning as the opening of an unfortunate era. For many years St. Paul has enjoyed the distinction of being the leading jobbing point in the Northwest. A most potent factor in building up the immense jobbing trade has been the superior railroad facilities, but the energy and enterprise of the multitude of jobbers must also be taken into account. There are several hundred wholesale houses, representing every line of trade, and their aggregate business is still expanding and a splendid token of its growth is the fact that many of the older houses have recently found it necessary to acquire larger buildings for the transaction of their constantly increasing business. During the past few years a number of large and costly structures have sprung up in the wholesale district, and yet there are no vacant buildings. Several of the largest and finest jobbing houses of the country were erected in St. Paul during the past few years.

St. Paul takes a high position among Western cities as a manufacturing center. No particular product predominates to any great extent, although shoes and cigars rank first on the list. The largest fur houses and the largest calendar house and the largest law book house in the world are located here. Also immense machinery manufacturers and coke ovens are located here.

The banking facilities of the city are ample, there being 7 national and 33 state banks, and 6 savings banks, with an aggregate capital and surplus of $20,000,000. All of these banks are now in a most solid condition. There are also a number of prosperous loan and trust companies.

The total assessed valuation of taxable property in the city is $150,000,000. The tax rate for all purposes, state, county and city, is 59 mills. Total indebtedness is $13,069,000.

Transportation facilities. There are 7 lines of railway to Chicago and the East, 4 to Lake Superior, 3 to Manitoba and the Northwest, 5 to the Pacific Coast, 5 to the Southwest and 5 to the South. Aside from all this, the city is the head of navigation on the Mississipi river, which will hereafter prove a valuable means of transportation.

There are several interurban lines, four to Minneapolis, and one to White Bear and Stillwater and one line to Hastings.

The police and fire departments are well equipped and rank with the best among the cities of the nation.

St. Paul has 12 universities and colleges, with a student population of about 6,000, besides the St. Paul Institute, which offers a magnificent university extension course, 70 public schools and nearly as many private schools, numerous and extensive libraries, 198 churches, well managed public and private charities, and clean paved streets. Nearly all of the downtown streets and the best dwelling districts are paved with asphalt although creosote blocks are most in favor in new paving that is being done. It is said that the paving of of University avenue, connecting the two cities, is the largest job of creosote paving in the world. The white marble $5,000,000 capitol, the city hall and court house, which cost one million, a million dollar postoffice, a new public library costing $2,000,000, the numerous school buildings and the city and county hospital are the principal public buildings. The Hill building and the Merchants National bank building are two of the largest of the new buildings erected during the year. The new Hamm building, the largest and finest in the city, is just being finished. The Athletic club and the Minnesota and University clubs are magnificent structures. The corporations housed in the Hill building, the bank and trust companies, the railroads, the ship companies, the ore companies and many others make it the largest financial building in the world, there being many billions of dollars in corporation capital represented.

St. Paul has made wonderful strides during the past few years. The greatest civic pride in its history has permeated to every nook and corner of this beautiful and artistic city of hills, valleys, lakes and streams. It has grown tremendously in population, beauty and wealth as a result of general civic effort and pride. A new Union Depot costing $15,000,000 although not yet finished, is now open for use.

Then there are scores of palatial residences that call forth admiration from visitors. St. Paul is today a wealthy, prosperous city, and her outlook for the future is in the highest sense flattering. She is the pride of her citizens and every stranger who sets foot within her boundaries unites in praising her appearance and business enterprise.

The municipal public baths and the Wilder Baths and the Wilder Charities are institutions of municipal interest and pride.

All these enterprises are the result of a concentrated civic interest such as has not prevailed in this city before during its whole career.

St. Paul is well known as a city of intellectual wealth. An immense proportion of the population is engaged in wholesaling, railroading or insurance. It must, nevertheless, not be forgotten that St. Paul is also a great manufacturing center. Almost every commodity that is used in the Northwest, including autombiles and clothing, is made in St. Paul.

It has recently become a great grain market, the Equity Grain Association having located its headquarters here.

The park and boulevard system affords wonderful recreation privileges for the masses. Several hundred miles of roadways and parks and boulevards through glens and dales, around lakes and along and over streams, meander through, around and about he capital city. Exp and tel. Otto N Raths P M.

SAVE TWENTY TO TWENTY-FIVE PER CENT ON GASOLINE by using GARVEY'S MOTOR PEP. Reduces gasoline expense. Increases mileage twenty to twenty-five per cent. Prevents eighty per cent of carbon. One $1.25 package treats 125 gallons of low grade gasoline, making it a high grade product. Prove by trying it.

FARM LANDS AND INVESTMENTS

WHY USE POOR GASOLINE which fills your motor with carbon and gives short mileage, when at the cost of 1c per gallon it can be made the very best and relieve you of all the trouble which comes from using poor motor fuel? Where kerosene is used in tractors or in stoves it will be found equally beneficial. It purifies the oil, increases the power, eliminates the smoke in kerosene stoves.

M. J. DILLON,
Manager.

Reasons for not Insuring

There are three good reasons for a man's not taking life insurance:

FIRST—That his family history or present health is such that he will not be accepted.

SECOND—That he has not now, and cannot get, the money to pay the premium on the policy.

THIRD—That he does not care a ———— for his family.

WE are sorry for the first two; his family is sorry on account of the other one.

THE PACIFIC MUTUAL LIFE INSURANCE COMPANY of California wants good risks and good agents to get them.

Telephone or write me at once for a policy or an agency.

Address, M. J. DILLON,

SAVE TWENTY TO TWENTY-FIVE PER CENT ON GASOLINE
by using GARVEY'S MOTOR PEP. Reduces gasoline expense. Increases mileage twenty to twenty-five per cent. Prevents eighty per cent of carbon. One $1.25 package treats 125 gallons of low grade gasoline, making it a high grade product. Prove by trying it.
GARVEY MANUFACTURING CO., 534 Bremer Arcade, St. Paul

WHY USE POOR GASOLINE which fills your motor with carbon and gives short mileage, when at the cost of 1c per gallon it can be made the very best and relieve you of all the trouble which comes from using poor motor fuel? Where kerosene is used in tractors or in stoves it will be found equally beneficial. It purifies the oil, increases the power, eliminates the smoke in kerosene stoves.

VIRGINIA. Census pop 14,022. St Louis county. A mining and lumbering city incorporated in 1895 in the center of the great Mesaba Iron Range, on the D M & N, D & I R R R, D W & P and G N Rys, 64 miles n of Duluth. The Mesaba Electric Ry gives it hourly service to Gilbert to the east and to Buhl, Chisholm and Hibbing to the west. It is one of the judicial seats for the northern part of St Louis county and is at the intersections of two concrete road systems from Duluth to International Falls and to Ely to Grand Rapids. Has one of the best paid fire departments in the state, numerous brick blocks, which give it a very metropolitan appearance. Baptist, Catholic, Episcopal, Congregational, Lutheran, Methodist, Mission, Unitarian, Presbyterian and Hebrew churches, a civic and commercial body, a $60,000 public library, containing 20,000 volumes, 4 banks, 3 hospitals, an opera house, several hotels, flour and saw mills, boiler works, a creamery, a grain elevator, soft drink and ice cream factories, water works, electric and gas plants. Two daily newspapers, the Enterprise and the Virginian, and 2 weeklies, the Virginian and the Range Labor News, are published. The principal industries are mining and lumbering. Ships iron ore, lumber and produce. Land sells at $15 to $65 per acre. Exp and tel. G I Williams P M.

WHY USE POOR GASOLINE which fills your motor with carbon and gives short mileage, when at the cost of 1c per gallon it can be made the very best and relieve you of all the trouble which comes from using poor motor fuel? Where kerosene is used in tractors or in stoves it will be found equally beneficial. It purifies the oil, increases the power, eliminates the smoke in kerosene stoves.

ST. PAUL FOUNDRY COMPANY
STRUCTURAL STEEL AND IRON-GRAY IRON AND SEMI-STEEL CASTINGS
ST. PAUL, MINN. See Page 7

Wadena is one of the most beautiful of Minnesota's many beautiful towns. The streets are all lined with trees and the residences all of substantial and artistic build with none of the sameness which so often mars the general effect. The business section is mostly of solid brick construction and the streets are broad and well kept. Has Catholic, Congregational, Episcopal, Evangelical, Norwegian and Swedish Lutheran and Methodist churches, a commercial club, 3 banks, 4 hotels, a library, a sanitarium, a hospital, a canning factory, a foundry and machine shop, an opera house, flour and planing mills, 2 creameries, bottling works, ice cream factories, an electric light plant and water works. Two weekly newspapers the Progressive News and the Pioneer Journal, are published. Land sells at $50 to $150 per acre. Ships grain, flour, live stock, cream, butter, potatoes and vegetables. Stage daily to Park Rapids and return. Exp and tel. Chris Himsinger P M.

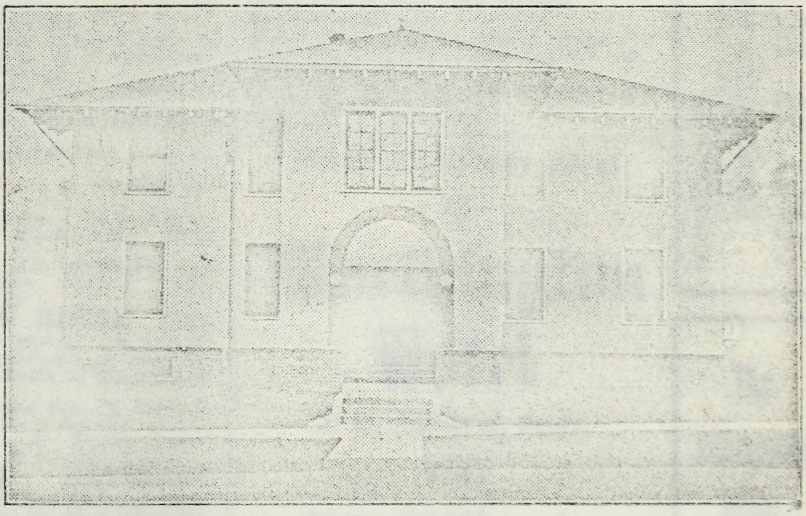
The Worthington Sanitarium

(THE ONLY INSTITUTION OF ITS KIND IN THE UNITED STATES)

Fourth Avenue and Ninth Street
Worthington, Minnesota

A Few Days' Treatment at the Worthington Sanitarium Often Transforms an Invalid Into Full Health



THE WORTHINGTON SANITARIUM is noted for possessing one of the most complete X-RAY LABORATORIES in the Middle West.

Patients are daily being brought to this institution from long distances to secure the advantages of this famous X-RAY plant, which is acknowledged the final word in scientific capability

CHRONIC DISEASES SUCCESSFULLY TREATED.

When There is Really An Established Disease, All Cures Fail EXCEPT THE ONE THAT REMOVES THE CAUSE

ZUMBROTA JUNCTION, Olmsted county. On the C & N W Ry 1 mile w of Rochester.

WHY USE POOR GASOLINE which fills your motor with carbon and gives short mileage, when at the cost of 1c per gallon it can be made the very best and relieve you of all the trouble which comes from using poor motor fuel? Where kerosene is used in tractors or in stoves it will be found equally beneficial. It purifies the oil, increases the power, eliminates the smoke in kerosene stoves.

AUBURN
Certified TIRES
are sold with a certified statement telling the exact ingredients that are responsible for their unusual service.
They have proved, under actual tests, to wear at the rate of but 1/32 of an inch per 1,000 miles of average service. Pure rubber and "more rubber" is the reason.
DEALERS send for Price List.

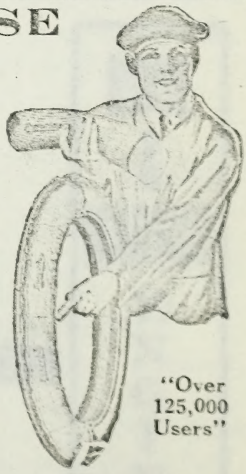
SAVE TWENTY TO TWENTY-FIVE PER CENT ON GASOLINE
by using **GARVEY'S MOTOR PEP.** Reduces gasoline expense. Increases mileage twenty to twenty-five per cent. Prevents eighty per cent of carbon. One $1.25 package treats 125 gallons of low grade gasoline, making it a high grade product. Prove by trying it.
GARVEY MANUFACTURING CO., 534 Bremer Arcade, St. Paul

REDUCE TIRE EXPENSE

Especially unnecessary expense! Why worry along with punctures and blowouts—and the constant fear of them—when Essenkay, The Tire Filler, will eliminate your tire troubles forever.

No spare tires, spare rims, no inner tubes, pumps, jacks, nor tire tools. None of these expensive and weighty accessories need to be taken along when your tires are filled with

Essenkay THE TIRE FILLER



"Over 125,000 Users"

Essenkay THE TIRE FILLER

INSTALLED ON MONEY BACK GUARANTEE

Here's an opportunity for every motorist to see the wonderful advantages of Essenkay. Test it out on your own car, under any load and road conditions you choose. Give Essenkay any test you like and continued service will prove that it will double tire mileage and ride like air. **The trial will cost you nothing.**

COME IN AND GET THE FACTS

See **Essenkay Tire Filler** here. Glad to show **Essenkay** and answer questions, without obligation. If you cannot come, write for our free booklet.

WHY USE POOR GASOLINE which fills your motor with carbon and gives short mileage, when at the cost of 1c per gallon it can be made the very best and relieve you of all the trouble which comes from using poor motor fuel? Where kerosene is used in tractors or in stoves it will be found equally beneficial. It purifies the oil, increases the power, eliminates the smoke in kerosene stoves.

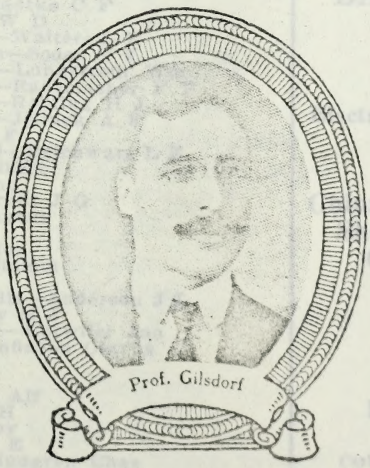
Barber Trade Taught to Everybody in a Short Time



I have successfully taught the Barber trade to thousands of men and women in less time than any other instructor.

If I fail to teach you, I will cheerfully refund your tuition fees.

Approved by the State Educational department for such courses to men and women who have been in the war service.

An apt pupil learns in from two to six weeks.

Call or write for free catalog and hair cutting chart, also a complete book on skin diseases and the Barber trade.
